

UNDP - Denmark Partnership

As one of our largest government contributors, Denmark is a vital partner in UNDP's mission to end extreme poverty, reduce inequality and achieve the goals of the 2030 Agenda for Sustainable Development. UNDP's work and the priorities of the Danish Government converge in many areas, especially in our commitment to help countries reach the Sustainable Development Goals (SDGs) through **promoting democratic governance and enhancing national prevention and recovery capacities to build resilience.**

In 2017 Denmark contributed

\$27m

to unearmarked "core" funding, enabling UNDP to help the poorest and respond quickly to crises

4% of UNDP's vital core funding came from Denmark

\$60m

earmarked to specific themes or programmes ("non-core") including:

- \$6.1m earmarked for democratic governance for peace and development and \$6.1m for emergency development response to crisis and recovery through UNDP's Thematic Funding Windows
- \$2.3m to the UNDP Innovation Facility, enabling UNDP to experiment with new approaches to finding solutions to global development challenges and the SDGs
- \$2.3m to human resources support, including Junior Professional Officers (JPOs) secondments, helping strengthen UNDP staff capacity to deliver results on the ground

From 2014 to 2017 Denmark contributed \$142m to earmarked ("non-core") programmes, disbursed across the following regions...

...and against the following development outcomes

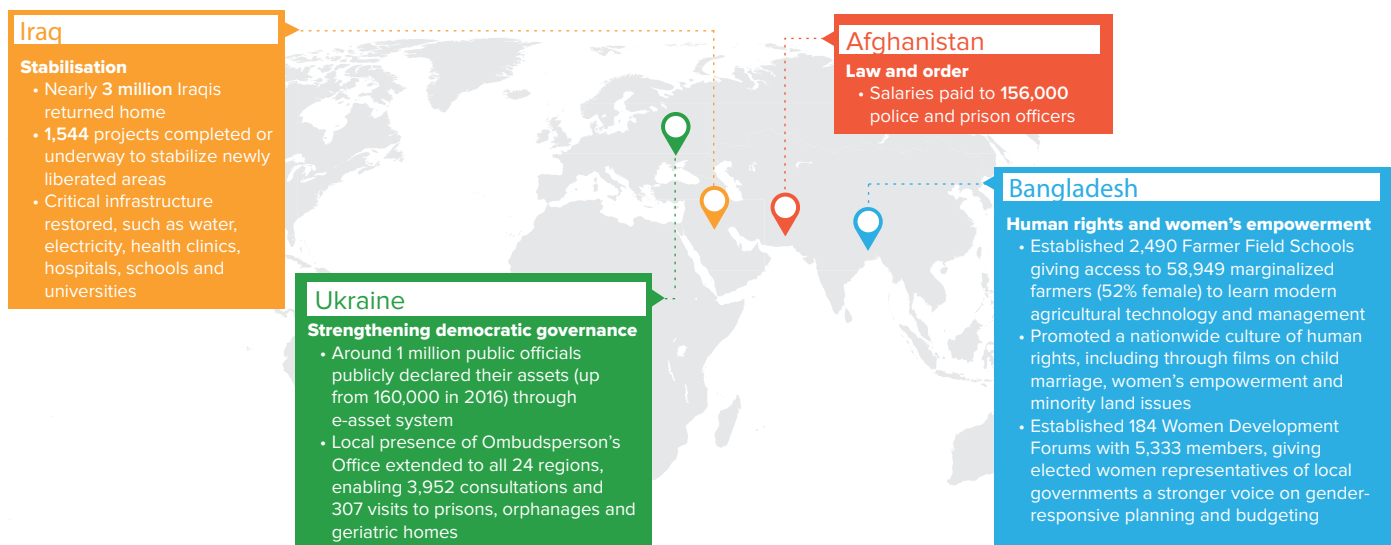

* Includes contributions to Funding Windows (\$12m), JPO programme (\$11m), Crisis Prevention and Recovery thematic trust fund (\$5m), various activities in Afghanistan (\$3m), disaster prevention (\$1.9m), gender equality (\$1.7m) and UN City support (\$1.6m).

"UNDP plays a central role in supporting developing countries in achieving the integrated 2030 Agenda and works to address many of the root causes of migration and refugees. UNDP's strategic priorities are well aligned with Denmark's development and humanitarian strategy."
Ulla Tørnæs, Danish Minister for International Development Cooperation

Results on the Ground

Danish support, through UNDP, is making a difference to people's lives by helping to **stabilize societies and rebuild institutions** in some of the most challenging development contexts in the world.

The top ten recipients of Danish funding through UNDP from 2014 to 2017 were **Iraq, Afghanistan, Ukraine, Bangladesh, Nepal, Somalia, Lebanon, Tanzania, Jordan and Ghana**. The figure below illustrates just some of the results achieved in that time, thanks to the support of Denmark and other donors.

UNDP Global Results, 2014-2017

During the last Strategic Plan period, our initiatives assisted

Nearly
170M new voters
to register in 52 countries

37.3M people
to benefit from improved livelihoods

More than
6.7M people
to have improved access to energy in 55 countries

4.1M people
to gain access to legal aid services in 39 countries, 51% of them women

Nearly
3M people
to find new jobs - 41% for women

2M people
to receive antiretroviral treatment in 22 countries (as of mid-2017)

104 countries
to implement low-emission and climate-resilient measures

More Efficient, Effective and Transparent

UNDP is committed to managing resources efficiently and **delivering maximum value** for every dollar invested. During 2014-16 we saved \$33m a year and decentralized capacity to the regions, connecting staff more closely to results on the ground and increasing the flexibility of our workforce. Our new Strategic Plan promises **continuous improvement**: overhauling our business processes to match the best management practices of the 21st century, building **innovation and dynamism** into the way we work. These improvements will make us better able to deliver—and measure—**stronger results for those we serve**.

Delivering Results

When you invest in UNDP, you invest in the entire UN Development System—helping deliver **better results for the world's poorest and most vulnerable**.

Donors' support to our essential unearmarked "core" funding enables us to:

- **Focus on the poorest**: 86% of core programme resources are allocated to Low Income Countries
- **Respond quickly and flexibly to crises** like earthquakes, tsunamis or conflict
- Leverage **additional financing**—for every \$1 of core resources invested in Middle Income Countries, we leverage \$32 in other resources
- Maintain the managerial backbone that safeguards the quality and integrity of UNDP operations, ensuring we are **accountable, efficient and transparent**
- Underpin our programmes with policy expertise on **human rights, gender equality** and the empowerment of women and girls, and help us apply robust social and environmental standards to all our projects

UNDP is at the heart of the UN system, working closely with other UN entities for **stronger collective impact**. For example, we provide shared services (like payroll and common premises) to other agencies so they can operate in hard-to-reach areas. As part of reforms to make the UN system more effective and efficient, UNDP's global and country support platforms will help governments and partners collaborate on integrated solutions to their biggest development challenges, while strengthening links across **development, humanitarian and sustaining peace** efforts.

Ranked

the world's most transparent aid agency

by IATI since 2014

Ranked among

the world's top organisations for value for money and communication with partners

by AidData (2015)
