Dear Stakeholder,

It is our great pleasure to invite you to participate in the Consultation on the Sustainable Agriculture Business Principles, 30th September.

The UN Global compact is facilitating the creation of a set of Sustainable Agriculture Business Principles (SABP) to provide guidance to all business in agriculture, processing, trading, manufacturing, distribution and retailing. In this process we would like to invite you to give feedback and insights to the development of these principles.

The consultation will be a multi-stakeholder dialogue and feed into the formulation of sustainable agriculture business principles, and a drafted White Paper (attached) will frame the discussions. The consultation also contributes with input to the Global Green Growth Forum, hosted by the Ministry for Foreign Affairs in October.

Considering your role in and knowledge about the agricultural value chain, we strongly encourage you to save the date and confirm your participation to Mr. Frederik Falkenberg, frederik.falkenberg@undp.org at your earliest convenience but no later than 25 September.

Sincerely,
Camilla Brückner, Henrik Munthe
Director UNDP Nordic Office Global Compact Nordic Network

Date: 30 September
Time: 9.00-16.00
Place: UN City, Marmorvej 51, 2100 Copenhagen Ø in Denmark
